DEPARTMENT OF BUSINESS MANAGEMENT

8th March, 2014

A Report Of Industrial Visit To BILT

In a historic development, the management of Ballarpur Industries Limited (BILT) has decided to reopen its pulp manufacturing unit at Kamalapur village in Mangapet mandal in the district. The students of IV Semester of Department of Business Management visited BILT Kamalapur, Warangal on 08-03-2014.

Disclosing this to newsmen, Deputy Chief Minister Kadiam Srihari and MP A Sitram Naik and others said the decision was taken by the management and Chief Minister K Chandrasekhar Rao keeping in view the lives of over 7,000 employees who have been rendered jobless due to the closure of factory in 2014. The employees have been on relay hunger strike for the past 320 days demanding reopening of the factory. Mr Srihari said that following a request by the management of the factory, the State Government has agreed to accord subsidies on power supply and wood to the tune of Rs. 30 crore per month for a period of seven years. In all the State government would be paying Rs. 210 crore per annum

VAAGDEVI COLLEGE OF ENGINEERING

DEPARTMENT OF BUSINESS MANAGEMENT

to the factory management by way of subsidies for the benefit of employees and people living in tribal mandals around. "The State government will give a subsidy of Rs 21 crore on wood supply and Rs 9 crore on power supply every month as per the decision of Chief Minister K Chandrasekhar Rao. The Andhra Pradesh Chief Minister N Chandrababu Naidu has also agreed to supply wood produced in his State on subsidy to the factory in the interest of employees working here," he said thanking both the Chief Ministers for their gesture. The BILT factory produces pulp used in paper

making and was established in 1975. Owing to availability of pulp at cheaper prices at international market, the demand for pulp produced by the factory has gone down resulting in losses. Hence the management decided to close down the factory in 2014 throwing the lives of 1,750 employees directly dependent on it and another 6,000 labour indirectly employed onto the roads. The factory also runs a hospital and school for the employees and local people. The news of reopening of Kamalapur factory cheered the people in agency mandals.

DEPARTMENT OF BUSINESS MANAGEMENT

It is rightly said that "See & know" is better than 'read & learn'. The objective behind the visit was to make them aware about how various activities related to production and operation are carried out in company.

In the introductory part students were acquainted with the industry. After introduction all students were divided into two groups of 30 students each and were headed by a manager of company who explained them how production is carried out in company and reaches to customer. Maximum production in company is machined based, subdivided in various activities like chipping, pulping, cleaning, bleaching, washing, drying and getting the final product. It took almost an hour to see complete set of production followed by students query and solution. Students got practical exposure to the working of the company and a chance to transfer their theoretical knowledge to practical implementation.
