

## ABOUT THE COLLEGE

It was the time of political turmoil and winds against the engineering colleges establishment, there was a serious need of developing technical manpower. Besides these, there is an emphatic requirement of individualized personal technical education to develop skilled, confident, qualified graduates. That's when seed of VAAGDEVI College of Engineering is sown by "Vishwambhara Educational Society".

VAAGDEVI is a 22 year old young institute marching forward to become world renowned institute/university focussing on creating graduates who are responsible, solving problems of society locally and globally.
