**NATIONAL LEVEL WORKSHOP
ON
APPLICATION OF STATISTICAL METHODS IN RESEARCH**

On 27th - 28th February, 2016

Organized by

Department of Business Management

VAAGDEVII COLLEGE OF ENGINEERING

Warangal, Warangal - 506 005 (TS)

Viswambhara Educational Society was established in 1993 with a Philanthropic objective in providing Educational services in Telangana region. The Society has established many colleges in the name of Goddess "Vaagdevi" in different fields covering Engineering, Pharmacy, Management, Education, Medical and conventional Degree & P.G. Courses. These Institutions with academicians having more experience imparting education in different areas and Today the Vaagdevi Group has a reputation for Academic performance, sports and extracurricular activities. As of today, Vaagdevi Group of Colleges have a strength of more than 25,000 students. The society has completed 25 years in imparting education and one of the largest Group of Colleges in Warangal after Hyderabad in Telangana State.

ABOUT THE DEPARTMENT:

The Department of Business Management was established in 2001 in Vaagdevi Colleges, Bollikunta campus to offer two years full time programme in Business Administration with the annual intake of 60 students. Presently MBA course is being offered in three streams – AUTONOMOUS, JNTUH, affiliated. The continuous effort of Faculty, Staff, Students and Management has led the department on to the path of academic excellence with a number of achievements during the last few years. It has been continuously contributing to the generations and spreading of knowledge in the area of business and management to different target groups. Students are being well placed in different reputed organiza-

tions and clear paths for the students to make further improvement and interaction.

The participants of this workshop will be provided with basic understanding of statistical concepts and their use in the domain of research on different environmental issues including environmental conservation and prediction of various environmental phenomena. The main features of the workshop are listed below:

Basics of Probability Theory as well as procedures of data collection/generation through Sample Survey and Design of Experiments, and standard statistical tools of data analysis including Correlation, Regression, Testing of Hypothesis, Analysis of Variance (ANOVA) etc.

Some useful statistical methodologies, especially those appropriate for Management Science, like Contingency Table, Principal Component Analysis, Cluster Analysis, Re-sampling Methods, Time Series Analysis, and Simulation for Ecological Modelling;

Objectives of the workshop:

To give knowledge on importance of statistics in scientific research

To describe the importance of statistics in different fields of study

To understand how to solve problems and to select appropriate statistical tests
