A Report Of Plantation Programme

The students and staff members of Department of Business Management organized a programme on 15th March, 2015 to plant trees. A tree produces oxygen that is life line of all living beings. A tree helps to clean the air, soil and water, making the earth a beautiful livable place. Living close to trees makes us healthier and happier. It's time to SAVE Trees, protect forests and spread awareness. If you want to save trees, you can help by protecting those that grow around your home, and planting more Trees. Reduce the use of paper products, too. 150 Students took initiation and roared the importance of saving trees.

Management also asked the students to motivate even their friends and family members to join hands together to save our beautiful earth or they can even join an organization working to save Trees around your home town. The students planted saplings, and fenced them and watered the plants.

Our teachers had also explained about the trees and the importance of tree plantation. Even our help staff also taught us how to plant them and then they watered the plants. The helpers told us different thing about the plant, their uses etc.
