A Report Of Better Environment-Better Tomorrow

The staff members of Department of Business Management organised a programme with 190 students on 5th June, 2017 to make better tomorrow. We all know that plastic pollution is toxic to humans, wildlife and marine life. Did you know that 300 million tons of plastic are produced each year and 90% of it is thrown away? According to the Plastic Pollution Coalition, by 2050 the oceans will contain more plastic than fish by weight. We have all unknowingly contributed to this problem so it's now up to us to reverse it by reducing consumption of plastics and changing our ways. In doing so, we can educate and raise awareness with our followers on the adverse effects by creating a better tomorrow. Let's do our part to save the planet.
