ENHANCING TEACHING LEARNING QUALITY

ON 22nd to 24th November 2014

Organized by

Department of Business Management
VAAGDEVI COLLEGE OF ENGINEERING

Bollikunta, Warangal - 506 005 (TS)

Vive-ambhara Educational Society was established in 1993 with a Philanthropic objective in providing Educational services in Telangana region. The society has established many colleges in the name of Goddess "Vaagdevi" in different fields covering Engineering, Pharmacy, Management, Education, Medical and conventional Degree & P.G. Courses. These Institutions with academicians having more experience imparting education in different areas and Today the Vaagdevi Group has a reputation for Academic performance, sports and extracurricular activities. As of today, Vaagdevi Group of Colleges have a strength of more than 25,000 students. The society has completed 25 years in imparting education and one of the largest Group of Colleges in Warangal after Hyderabad in Telangana State.

ABOUT THE DEPARTMENT:

The Department of Business Management was established in 2007 in Vaagdevi College of Engineering, Bollikunta, offering two years full time programme in Business Administration with the annual intake of 60 students. Presently MBA course is being offered Autonomous status CBCS pattern and present intake is 180 students. Well qualified and experienced Faculty Members, Staff, Students and Management has led the department on to the path of academic excellence with a number of achievements during the last few years. It has been continuously contributing to the generations and spreading of knowledge in the area of business and management to different target groups. Students are being well placed in different reputed organizations. The department has an updated computer lab, library and class rooms for the students to make

The basic objective of the programme is to develop the skills and quality of the teachers with the latest developments in information and communication technologies. Quality in education could be the degree of excellence in imparting and acquisition of knowledge through teaching and learning. The world is becoming more complex, year-after-year. Instead of generation-to-generation and the educational needs continue to shift from teaching and learning isolated skills and information within each content area, to teaching skills that enable students to solve complex problems across many areas. The students are expected to learn high-level skills such as how to access, evaluate, analyze, and synthesize vast quantities of information. Teachers are expected to meet the needs of all students and move them toward fulfillment of their individual potential even as they are pressured to prepare students for maximum performance on high-stakes assessment tests that are the primary measure of student and institutional success. Technology can assist with these expectations and make teachers and their students more successful. This course orients the teachers for a technology-rich future and keeps up with change by adopting effective strategies that infuse lessons with appropriate technologies.
